On the panel discussion, Constantin Zelenty from the German Embassy talked about the benefits of the programme for both countries together with Begimai Toktorbaeva, Head of Department at the Kyrgyz Ministry of Economy and Trade, and Temir Sariev from the local Chamber of Industry and Commerce. The three panellists shed light on the development of German-Kyrgyz economic relations from different perspectives and agreed that bilateral economic relations have developed well in recent years, but that the potential is far from exhausted. *The Partnering in Business with Germany* Programme offers very good opportunities for business contacts and cooperation between German and Kyrgyz companies, particularly in the food industry, light industry, construction and healthcare sectors.
